Those Prest in County "Frauds." The INTELLIGENCER is in receipt of a communication, which appears to-day, on the subject of the alleged suppression of prohibition votes in Preston county in 1886. The charge that several prohibition votes were "either suppressed or counted for Judge Flick," which certain Prohibitionists are making, is shown by Mr. Carskadon's letter to be unfounded. Mr. Carskadon finds that the record in the County Clerk's office shows that the votes cast for Mr. Siler, the prohibition candidate, were counted for him, but that they were not certified to the Governor by the County Court. Thus the reckless charge made by Grandon's Graphic and some other over-enthusiastic prohibitionists, that there was fraud committed in the interest of Judge Flick, and that the votes were counted for that gentleman, falls to the ground. The fact is simply that the County Commissioners were guilty of an unintentional oversight in failing to certify the votes to the Governor. We say unintentional because it could not reasonably have been otherwise, in view of the fact that the official your cock-loft, whether your news is ground and sample of the Register.
